

K Home International's Senior Management team has recently been strengthened with the appointment of Michael Home to the post of Commercial Director.

Michael, who qualified as a Chartered Accountant in 1987, brings over twenty five years worth of business finance and management expertise gained while working for leading London-based accountancy, leasing and office equipment companies.

"KHI has grown significantly over the last 35 years and has ambitious plans to maintain this level of expansion. Consequently, it has recognised the need to strengthen the existing senior management team, adding new skills and experience to supplement and complement those of the existing Directors," said Michael.

"My brief is to oversee all of the commercial aspects of the business, including finance, planning, budgeting and forecasting, to ensure that we grow as effectively as we have done in the past.

"These are truly exciting times for KHI, but we need to remain vigilant in a global economy where uncertainty can present significant threats," added Michael.
