

## **K Home International supports SNF UK in creating World Class Emulsion Polymer Plant**

K Home International (KHI), multi discipline consultant engineers are pleased to announce the award of a significant contract by SNF Oil and Gas Limited. The contract is to provide civil engineering design services for a Brownfield industrial development to be built in Billingham.

SNF Oil and Gas Limited are part of the French based SNF Group which is the world's largest producer of water-soluble polymers used in the pulp & paper, water treatment and oil and gas industries. The group operates 20 production sites throughout the world employing some 3,450 employees.

Commenting on the award, Simon Tearle, SNF UK Group Managing Director, said "The project represents a significant expansion to SNF's production capability in Europe. The site will be one of the largest SNF emulsion production facilities and we are excited to be bringing employment and growth to the Teesside area. We have been working with K Home International in developing the concept for this plant and are pleased to be continuing our relationship with them."

The plant is expected to employ up to 250 people once the plant reaches full production.

Michael Ketley, Process Industries Business Manager, who is delighted with the contract award stated "We have worked with SNF over a number of months and during this period we have formed a close collaborative relationship. This understanding will be key in the success of this phase of work. K Home International is proud to be working on such a significant project in the Teesside area."

### **NOTE TO EDITORS**

K Home International Limited (KHI) is a privately owned company established in 1973, providing

worldwide multi-disciplined engineering design, procurement and construction management services to the chemicals & petrochemicals, metals & minerals, oil & gas, pharmaceutical and infrastructure industry sectors.

The Engineering services provided by KHI include;

- Feasibility Studies and Front End Engineering Design (FEED)
- Project Management and Risk Management
- Construction Management
- Project Cost Estimating, Control and Procurement
- Multi Discipline Engineering and Detail Design
- 3D Modelling and Visualisation
- Safety, Health and Environment (SHE)

KHI offers an innovative and professional range of integrated engineering disciplines including; Process,

Civil, Structural, Architectural & Building Services, Mechanical/Materials Handling, E&I, Piping and

Pressure Systems.

Fully certified ISO 9001 Quality Management System and OHSAS 18001 Occupational Health & Safety
