

FOR IMMEDIATE USE – July 2017

## **Congratulations to Michael Hartland**

*Amanda McMahon congratulates Michael Hartland*

Congratulations to Michael Hartland who has recently achieved his graduate engineer status. Michael received his official confirmation from Teesside University on 27<sup>th</sup> June that he has achieved a Bachelor of Engineering in Instrumentation and Control with First Class Honours.

After starting with K Home International Ltd as a CAD Designer Michael has been working in the Instrumentation and Control department, and wanted to further with his career by studying a Degree in Instrumentation & Control at Teesside University on day release basis over a 4 year period.

Amanda McMahon, Manager of Engineer, commented on Michael's achievement "*We are delighted that Michael has passed with first class honours. He has shown dedication and hard work applying himself to his work and his part time studies. Michael is proud of his achievements and rightly so. He will be attending his graduation ceremony at Teesside University on 17<sup>th</sup> July*"

*Michael added "The reason I joined K Home, almost 9 years ago, was to further my career and although it's been a long journey it has been worthwhile as this gives me the opportunity to progress. K Home supported me throughout my studies, which alongside hard work, enabled me to get the grade I aspired to. I would like to thank all those both past and present who have supported me".*
