

FOR IMMEDIATE USE – 4th November 2010

WELCOME RETURN TO ICELAND

K Home International (KHI) is pleased to once again be involved in the Icelandic aluminium industry. Icelandic engineering consultancy HRV has entered into an agreement with K Home International Ltd of Thornaby to provide engineering support for the Rio Tinto Alcan (RTA) ISAL aluminium smelter modernisation project. HRV and KHI have previously worked together on the Nordural smelter in Iceland and are pleased to renew a positive working relationship. KHI's involvement focuses on engineering and procurement services for the upgrade of the ISAL casthouse facility.

KHI has been working with HRV/RTA throughout 2010 assisting with a Feasibility Study which was presented to the RTA board during 2010, the project was subject to a power agreement with Landsvirkjun, the Icelandic power utility. Please see the following press releases:
