

FOR IMMEDIATE USE – 23 January 2014

## **Victrex awards K Home International's SHE Performance**

K Home International has recently received a SHE award from Victrex for Proactive SHE Performance in 2013, during the construction of the PPP 3 Project.

KHI has a track record of successfully designing and delivering projects on time, on budget and safely. The company has recorded 2,385,000 hours in the past six years without a lost time accident (LTA).

Lee Anderson, Operations Director of K Home International said: "Over 1,500 safe act, near miss/potential hazards were raised by KHI personnel and main contractors on this site to date. This positive approach benefits all parties on the project and we would like to thank all involved for their input into the continual safe working practices on the project."
